

VAFFC / Vancouver Airport
Fuel Facilities Corporation

AN FSM GROUP MANAGED CORPORATION

Dear Landowner/Resident/Business

May 11, 2020

RE: Vancouver Airport Fuel Delivery Project- Road Closure Notice

Please be advised that there will be a one-day road closure on No. 6 Road in Richmond. The closure will take place along No.6 Rd between Blundell Road and Triangle Road (see map on page 2).

The road closure will commence at 7am for a single day and occur at some point between May 15 and May 22, 2020.

“Local Traffic Only” signs will be placed at the beginning and end of the closure allowing residents within the closed areas to access their properties. However, construction activities will prevent through access along No. 6 Road at the intersection of Francis Road (just south of the Country Meadows Golf Course). Residents north of Francis Road will need to utilize Blundell Road, residents south of Francis will need to utilize Triangle Road, and Steveston Highway.

This closure is required so we can safely complete the installation of one of the final segments of 14-inch pipe within the Francis Road, undeveloped road allowance area.

A detour over to Sidaway Road is the suggested alternative and a traffic flagger will be located at the closure point to provide assistance as needed.

Vancouver Airport Fuel Facilities Corporation (VAFFC) is committed in keeping the communication lines open through the construction and operation of this important project to ensure stakeholders remain informed about our activities and feel comfortable in contacting us.

If you have any questions now or at any time during the construction of the aviation fuel pipeline, please call or email the undersigned contact at RAM Consulting who have been retained as the Construction Management Company for VAFFC.
